PERSONAL INFORMATION

I am looking for a job where I can use my skills and gain further knowledge and experience.

OTHER SKILLS

- B2 driving licence
- English Language
- Git, Github
- Good problem solving skills
- Reliability

Skills

– I gained a lot of experience using unity while working on my thesis but I also used it for other projects including developing PC and mobile games and mobile applications.

– Expert knowledge of a variety of programming languages including C#, Python, JavaScript and SQL.

– Able to work individually and as a dedicated technical team member.

Education

Óbuda University Alba Regia Technical Faculty

Computer Science Engineering (BSc) | 2019–2023

I graduated in Computer Engineering with a specialization in Big Data and Business Intelligence.

My thesis was XR Support of Industrial Maintenance and Operational Workflow, in which I created an application that can store and visualize the coordinate values of a robot and project them onto real space.

In the first half of the academic year 2022/2023, I participated as a demonstrator teaching HTML, CSS, BOOTSTRAP and JavaScript

Székesfehérvár Vocational Education Centre Deák Ferenc Technical and Vocational School

Graduation certificate | 2017–2019

– Advanced IT graduation
